

# BRITISH NORTH AMERICA SPECIALIZED - Classic Canada Stamp Album 2023

Andrew L. Winter  
John M. Walsh, FRPSC

Dear Collector,

We thank you for choosing our Stamp Album. This album reflects the 2023 British North America Specialized Stamp Catalogue numbering system. Increasingly, collectors, dealers and auction firms rely on the Catalogues to accurately describe and estimate the market value of Newfoundland, British North America and Canada to 1951 stamps and related ephemera.

We recognize that every collector has different preferences for mounting their collection. Based on decades of experience, it is recommended you mount your album pages inside clear acetate page holders that have three holes in the acetate sheet margin. They allow you to remove pages for various purposes, including exhibition desires.

Enjoy your collecting and have fun.
